## PERSONAL PROJECTS

Streetlight Controlling System Using Aurdino (02/2020 - 03/2020)

- Automatic street light control is used to control the street lights(Turn on and off based on the light). Here we make use of LDR (Light Dependent Resistor) and LED(Light Emitting diode.When its Dark the LDR will switch on all the LED's and their brightness will be full / 5 (255 / 5) and when any obstacle is detected by the IR sensor the respected LED will glow with full brightness for 3 sec
